

Quality Policy Statement

The Sauter Group UK incorporates Sauter Automation Ltd and Wren Environmental Ltd, hereby referred to as “Sauter”

Sauter’s objective is to assure the quality of the products and services supplied to customers and that our quality policy requirements are established, implemented and maintained, in recognition of our context and strategic direction throughout all phases of contract performance.

The quality management system is subject to review towards continual improvement. Business objectives will be established and reviewed on a regular basis. Provision is made for the early detection of deficiencies, trends or conditions that could lead to unsatisfactory product or service quality, and so enable Sauter to take effective non-conformity and corrective action, which is both timely and effective.

Customer needs and expectations are identified and are regularly assessed for risks and opportunities to ensure the products and services provided are fully accepted with respect to business objectives.

The control of quality in our production and system’s, is vested in every employee and as such, collectively support the aim of Sauter’s objective to supply products and services to agreed schedules and customer requirements and legislation.

We will ensure that the necessary resources are provided to meet and maintain the systems, processes and procedures of a quality system, that satisfies the requirements of ISO 9001:2015, including such training, or instruction as may be required. We will ensure competent personnel are employed at all levels to support the achievement of the Sauter objectives.
